

Sign up Today

You can sign up and register for the Patient Portal by giving your provider your name and email address. In turn, your provider will give you an activation code, known as an enrollment token. The enrollment token will allow you to log in to the system and create your own private user name and password.

Or, check your provider's website for an "enroll now" button, which will allow you to register yourself

Who can sign up?

Patients and their legal guardians can sign up for Patient Portal in accordance with the Terms and Conditions of the website. Just tell your provider who you would like to enroll and you are on your way to connecting with your doctor.

We're eager to improve your healthcare experience.

We want to provide you with the best care possible. You can help improve your health experience; just sign up for the Patient Portal today.

your doctor using
Patient Portal

Better Healthcare. Better Results.

Faster, reliable communication accessible 24/7 is only a click away

Tired of playing phone tag? An Internet-based Patient Portal simplifies communication with your provider and eliminates time-consuming phone calls to the practice. Whether you want to schedule an appointment or review your latest test results, the Patient Portal delivers the information you need through a convenient, easy-to-use Patient Portal.

Partner with your provider for better health

The Patient Portal is a secure, confidential, and easy-to-use website that gives patients and their families 24-hour access to their medical records. It uses the latest encryption technology to deliver secure communication between patients and providers. By signing up and enrolling with the Patient Portal, you will be able to:

- Correspond with your physician or practice online via our secure portal
- View, download, or share your personal health record, including data such as: medications, immunizations, and test
- Get 24/7 access to important health and educational information
- Request prescription refills
- Get appointment reminders
- Maintain account data including user name, password, and access privileges

We respect your privacy

Receive notices to your personal email account when there is important information awaiting you in your Patient Portal account. If you choose to use the Patient Portal, your name and email address will be treated with the same care and privacy given to your medical records.

Our providers are offering the Patient Portal to make your medical information more accessible to you and to help you live a healthier life.

Strengthen your provider relationship by exchanging personalized information via a secure website.
